Moving? Starting Service?

Moving into the City of West Linn?

First of all welcome to the beautiful City of West Linn. One of the first basic areas that you are probably interest in, is how to set your new home up with the various type of utility services. The City provides water, sanitary sewer, and surface water management services with a separate entities that provide for garbage, electric, natural gas, cable, and phone. Below is a handy contact listing of the various entities, who to call, and their web site home page. The larger utility companies such as PGE, NW Natural, and Qwest have an online web page where you can sign up to start a new service. For the City and West Linn Refuse (i.e., garbage services) you will have to call their particular number provided.

For your City utility services (i.e., water, sanitary sewer, and surface water management services), here is the link to the various methods that you can use to make payments on your monthly utility bill including our automatic direct payment program where it is automatically paid directly from your checking account: http://westlinnoregon.gov/finance/paying-your-utility-bill

Welcome again and hope you find this reference page helpful.
